

## MdProperty View, FINDER Quantum and FINDER Online Production Schedule as of 05/25/2017

Below is a preview of the upcoming 2015/16 Edition of *MdProperty View*, *FINDER Quantum* and *FINDER Online*. Note that because production of the 2013 Edition took place over an unusually extended time period to enable a large number of polygon conversions – six conversions – to be released during that Edition year, the 2013 Edition was renamed the **2013/14 Edition**.

P Each jurisdiction 2015/16 or 2013/14 Edition of *MdProperty View*/*FINDER Quantum* contains a shapefile of parcel polygon data attributed with parcel account number (ACCTID field) and associated *MdProperty View* Parcel dataset attributes.

P<sup>1</sup> In these jurisdictions, county-level polygons are included in the data download, in the *MdProperty View* map document file (mxd) and in the *FINDER Quantum* project file (qgs), but they are not fully integrated with the parcel points.
