Your attention to the Maryland Intergovernmental Review and Coordination (MIRC) process helps assure that this project will be consistent with the plans, programs, and objectives of State agencies and local governments, and helps us to provide the applicant and the approving authority with a State of Maryland recommendation. Issues resolved through this process enhance the opportunities for project funding and minimize delays during project implementation. The Clearinghouse MIRC process is the primary vehicle for insuring transparency in that it provides the opportunity to be made aware of and to comment on direct development in the State of Maryland.

It is essential that you advise the Clearinghouse as soon as possible of the need for additional information, of any adverse comments, and/or inconsistencies with plans programs or objectives, or ***if you are not able to complete the review by December 03, 2015.*** Otherwise we may assume the reviewer has no comments.
