Governor

Ronald M. Kreitner
Director

May 1, 1991

A MESSAGE FROM THE DIRECTOR

Following the 1990 Census of Population and Housing, Maryland must draw new state legislative and congressional districts. Governor William Donald Schaefer assigned the Maryland Office of Planning the responsibility for providing the basic data and technical system to assist in redistricting.

This report contains precinct population counts for the twenty-three counties and Baltimore City. The counts shown are derived from the Census of Population and Housing, 1990: Public Law (P.L.) 94-171 Data (Maryland) prepared by the U.S. Bureau of the Census.

The Maryland Office of Planning has completed its review of the Census Bureau's coding of individual census blocks (the smallest geographic areas for which population counts are available) to precincts (census voting districts). Based on errors identified through this review, corrections have been made to some of the precinct counts. The population counts for the remaining precincts are unchanged as are the counts for the state, counties and Baltimore City.

The precinct population counts are subject to possible correction for undercount or overcount. The United States Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The precinct (census voting district) counts provided in this report are based on precinct boundaries provided by the local boards of supervisors of elections. The precinct boundaries conform to features acceptable to the U.S. Bureau of the Census. All precinct boundaries used to derive the precinct counts were reviewed and certified by the local boards of supervisors of elections. The precincts contained in this listing conform to boundaries as they existed in April, 1990.

Included at the end of the precinct report are summaries of the 1990 population counts by existing congressional district (Appendix A) and state legislative district and subdistrict (Appendix B). These summaries are prepared by aggregating the individual precinct counts based on "membership lists" which assign each precinct to its respective congressional district and state legislative district or subdistrict. This membership information, also provided by the local boards of supervisors of elections, is shown in columns 1 and 2 of the detailed precinct listing that appears in the body of this report.

In addition to the paper listing, the precinct counts are available in an electronic format. Detailed counts from the P.L. 94-171 file for individual tabulation blocks within precincts are also available in electronic format. Paper copies of Census maps outlining voting precincts for counties, as well as detailed voting district block maps, are also available. Order forms for these products can be obtained by contacting the Maryland Office of Planning. Members and staff of the Maryland General Assembly should contact F. Carvel Payne, Director, or Karl Aro, Deputy Division Director, State Department of Legislative Reference.

We hope these data are helpful to those interested and involved in this very important decennial process of redistricting. Please direct inquiries to my Assistant Director, Michel Lettré, (301) 225-4450.

CERTIFICATION OF DATA

Maryland 1990 census population counts by county and election precinct (census voting district) as contained in this report are the official data to be used for redistricting in Maryland. The counts are derived from the Census of Population and Housing, 1990: Public Law (P.L.) 94-171 Data for Maryland prepared by the Bureau of the Census and released on February 12, 1991.

The population counts set forth herein are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

Ronald M. Kreitner, Director
Maryland Office of Planning

F. Carvel Payne, Director
State Department of Legislative Reference

Administrative Board of Election Laws

Redistricting Data and Products

A. Derivation of the Precinct Counts

The precinct (census voting district) counts presented in this report are derived from the Census of Population and Housing, 1990: Public Law (P.L.) 94-171 Data (Maryland), machine readable data file prepared by the Bureau of the Census and received by the State of Maryland on February 12, 1991.

The U.S. Bureau of the Census is required under Public Law (P.L.) 94-171, enacted by Congress in 1975, to provide redistricting data to state governments. It specifies that within a year following Census Day (by April 1, 1991), the Census Bureau must send to the Governor and legislature of each state the population data needed to redraw congressional and state legislative districts.

To meet the legal requirements, the Census Bureau created the 1990 Census Redistricting Data Program to allow states to receive census data for voting districts (election precincts in Maryland). Maryland participated fully in this program. Specifically, the Maryland Office of Planning outlined the boundaries of voting districts (precincts) on census maps. In accordance with guidelines established by the Census Bureau, the voting districts followed census tabulation block boundaries (census tabulations blocks are the smallest geographic areas for which the Census Bureau reports population data).

Where true election precinct boundaries did not follow census block boundaries, the closest available census block boundary was used to approximate the true election precinct. The mapped precinct boundaries for each jurisdiction were reviewed and certified by the local boards of supervisors of elections before they were reported to the Census Bureau.

The P.L. 94-171 data file Maryland received on February 12, 1991 contained 1990 census population data for voting districts (precincts) based on the precinct boundaries as outlined on the census block maps. On March 8, 1991, the Maryland Office of Planning issued a preliminary listing of the precinct population counts for all twenty-three counties and Baltimore City. These counts were identical to those found on the Census Bureau's P.L. 94-171 data file for Maryland.

Shortly after receiving the P.L. 94-171 data file and county block maps, the Maryland Office of Planning initiated its review of the Census Bureau's coding of census tabulation blocks to precincts. This review has been completed and resulted in the identification of the following types of errors:

1. A few census blocks were not assigned to any precinct;
2. Some census blocks were assigned to the wrong census precinct; and
3. In one instance (Wicomico County), the local election board subsequently modified the precincts in an election district (the 3 original precincts in election district 9 were replaced by 9 new precincts).

The affected precincts are shown in Table 1 along with the population count as originally reported by the Census Bureau on the P.L. 94-171 tape file and as modified based on the review. The population for all the remaining precincts as reported on the P.L. 94-171 tape file are unchanged as are the counts for the state, counties and Baltimore City.

A complete listing of the 1990 census counts by county and election district is found in the body of this report. The counts shown are the official data to be used for redistricting in Maryland. These counts are subject to possible correction for undercount or overcount. The U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

Also included in this report are summaries of the 1990 population counts by existing congressional districts (see Appendix A) and state legislative districts (see Appendix B). These summaries are prepared by aggregating the individual precinct counts based on "membership lists" which assign each precinct to its respective congressional district and state legislative district (or subdistrict). This membership information was provided by the local boards of supervisors of elections and is shown in columns 1 and 2 of the detailed precinct listing that appears in the body of this report. It is important to note that in some instance the existing precincts (voting districts) may not conform exactly to congressional and state legislative district boundaries as adopted in 1982.

B. Precinct Population Data Items

The census data items for the state, counties and precincts as shown in this report are displayed in two parts. Part A (pages numbered 1A, 2A, 3A through 36A) contain a count of all persons, a race count (five race categories), a count of all persons of Hispanic origin and a count of total persons 18 years old and over (the voting age population). Part B (pages numbered 1B, 2B, 3B through 36B) repeats the count of

all persons and the count of total persons 18 years old and over (the voting age population) and is followed by a count of persons 18 years old and over by race (five race categories) and persons 18 years old and over of Hispanic origin. The last data item is the total number of housing units.

Persons of Hispanic origin are not a race category and instead are a subset of the total population. The sum of persons in the five race categories equals the total population. Not included in this report, but available on the 94-171 tape file, are counts of persons not of Hispanic origin and persons 18 years old and over not of Hispanic origin broken down by race (five race categories).

C. Definitions of P.L. 94-171 Data Items

1. Race

The data on race that appears in the P.L. 94-171 file were derived from answers to item 4, which was asked of all persons on the 1990 census questionnaire. The concept of race as used by the Census Bureau reflects self-identification based on the race with which the person most closely identifies. The five racial categories used in the P.L. 94-171 1990 census data are:

White - Includes persons who indicated their race as "White" or reported entries such as Canadian, German, Italian, Lebanese, New Easterner, Arab, or Polish.

Black - Includes persons who indicated their race as "Black or Negro" or reported entries such as African American, Afro-American, Black Puerto Rican, Jamaican, Nigerian, West Indian or Haitian.

American Indian, Eskimo or Aleut - Includes persons who classified themselves as such in one of the specific race categories identified below.

American Indian - Includes persons who indicated their race as "American Indian," entered the name of an Indian tribe, or reported such entries as Canadian Indian, French-American Indian or Spanish-American Indian.

Eskimo - Includes persons who indicated their race as "Eskimo" or reported entries such as Arctic Slope, Inupiat and Yupik.

Aleut - Includes persons who indicated their race as "Aleut" or reported entries such as Alutiia, Egegik or Pribiliovian.

Asian or Pacific Islander - Includes persons who reported in one of the Asian or Pacific Islander groups listed on the questionnaire or who provided write-in responses such as Thai, Nepali or Tongan.

Asian - Includes "Chinese," "Filipino," "Japanese," "Asian Indian," "Korean," "Vietnamese" and "Other Asian."

Pacific Islander - Includes persons who indicated their race as "Pacific Islander" by classifying themselves into one of the following race categories, Hawaiian, Samoan, Guamanian or Other Pacific Islander, or identified themselves as one of the Pacific Islander cultural groups of Polynesian, Micronesian or Melanesian.

Other Race - Includes all other persons not included in the "White," "Black," "American Indian, Eskimo or Aleut," and the "Asian or Pacific Islander" race categories described above. Persons reporting in the "Other Race" category and providing write-in entries such as multiracial, multiethnic, mixed, interracial or a Spanish/Hispanic origin group (such as Mexican, Cuban or Puerto Rican) are included here.

2. Hispanic Origin

The data on Hispanic origin that appear in the P.L. 94-171 file were derived from answers to item 7, which was asked of all persons on the 1990 census questionnaire. Persons of Hispanic origin are those who classified themselves in one of the specific Hispanic origin categories listed on the questionnaire--"Mexican," "Puerto Rican" or "Cuban"--as well as those who indicated that they were of "other Spanish/Hispanic" origin. Persons of "other Spanish/Hispanic" origin are those whose origins are from Spain, the Spanish-speaking countries of Central or South America, or the Dominican Republic, or they are persons of Hispanic origin identifying themselves generally as Spanish, Spanish-American, Hispanic, Hispano, Latino and so on. Write-in responses to the "other Spanish/Hispanic" category were coded only for sample data.

Origin can be viewed as the ancestry, nationality group, lineage, or country of birth of the person or the person's parents or ancestors before their arrival in the United States. Persons of Hispanic origin may be of any race.

3. Age

The data on persons of voting age (18 years old and over) that appears in the P.L. 94-171 file were derived from answers to item 5, which was asked of all persons on the 1990 census questionnaire. The age classification is based on the age of the person in completed years as of April 1, 1990.

4. Housing Units

A housing unit is a house, an apartment, a mobile home or trailer, a group of rooms or a single room occupied as separate living quarters or, if vacant, intended for occupancy as separate living quarters. Separate living quarters are those in which the occupants live and eat separately from any other persons in the building and which have direct access from outside the building or through a common hall.

Both occupied and vacant housing units are included in the housing unit inventory, except that recreational vehicles, boats, caves, tents, railroad cars and the like are included only if they are occupied as someone's usual place of residence. Vacant mobile homes are included provided they are intended for occupancy on the site where they stand. Vacant mobile homes on dealers' sales lots, at the factory, or in storage yards are excluded from the housing inventory.

If the living quarters contain 9 or more persons unrelated to the householder or person in charge (a total of 10 unrelated persons), they are classified as group quarters. If the living quarters contain eight or fewer persons unrelated to the householder or person in charge, they are classified as housing units.

D. P.L. 94-171 Redistricting Data Products

The precinct counts shown in this report are available from the Maryland Office of Planning in electronic form for use with personal computer spreadsheet software.

In addition, the full P.L. 94-171 tape file can be ordered through the Census Bureau or the Maryland Office of Planning. A variety of other formats are available including CD-ROM as well as individual county tabulation block files on diskette.

For more information on the P.L. 94-171 data, call the Maryland Office of Planning's State Data Center at (301) 225-4450 and ask for the Product Announcement entitled "1990 Census, P.L. 94-171 Redistricting Data Population by Race and Voting Age, Total Housing Units" (March, 1991).

E. Redistricting Map Products

The Census Bureau has two map series that relate to the precinct (voting district) data that appears on the P.L. 94-171 tape file for Maryland:

1. P.L. 94-171 County Block Maps (1990)

These maps depict each county on multiple map sheets at various scales, depending on the county's areal size and the density of the block pattern. (Some counties include inset maps for densely settled areas.) The maps display the individual tabulation blocks as well as the boundaries, names and codes for the county and voting districts (precincts). Each county includes an index map sheet that shows the locations of the map sheets comprising the county set. There are 703 map sheets covering the entire State of Maryland (size 36" x 48").

2. P.L. 94-171 Voting District Outline Maps (1990)

These maps depict for each county voting district boundaries and codes, the features and feature names underlying the boundaries, and the boundaries and names of counties and places. Map scales vary to minimize the number of sheets. The maps may include one or more insets for densely settled areas. There are 66 map sheet covering the entire State of Maryland (size 36" x 48").

Copies of these maps can be ordered through the Census Bureau or the Maryland Office of Planning.

For more information on the P.L. 94-171 maps, call the Maryland Office of Planning's State Data Center at (301) 225-4450 and ask for the Product Announcement entitled "1990 Census Map Product Availability," (April, 1991).

Note: In preparing this section, materials from the following publication were used: Census of Population and Housing, 1990: Public Law (P.L.) 94-171 Data Technical Documentation/prepared by the Bureau of the Census.-- Washington: The Bureau [producer and distributor], 1991.

Acknowledgments

This report was prepared by the Maryland Office of Planning with the cooperation and support of the State Administrative Board of Election Laws (SABEL). Participating staff include Susan Alderman, Juli Anderson, Jean Appleton, Margaret Gillingham, Linda Swonger and Jane Traynham of the Maryland Office of Planning, and Donna Duncan of the State Administrative Board of Election Laws.

Special thanks are extended to the Boards of Supervisors of Elections of the 23 counties and Baltimore City. Mapping and verifying precinct boundaries on unfamiliar maps is a tedious and time-consuming effort. Nevertheless, our visits and phone calls to the local boards were always warmly received. We thank them for their gracious cooperation and assistance throughout the 1990 Census Redistricting Data Program.

Redistricting Process and Contacts

Following the 1990 Census of Population and Housing, Maryland must draw new congressional and state legislative districts.

Governor William Donald Schaefer assigned the Maryland Office of Planning the responsibility for providing the basic data and technical support system to assist in redistricting. The actual responsibilities for the development and enactment of new district boundaries rests with the Governor and the Maryland General Assembly.

The information outlined below is intended to be helpful to those interested and involved in this very important process of redistricting.

The topics covered include the population counts for redistricting, the time-frame for redistricting and who to contact about redistricting.

A. Population Counts for Redistricting

On February 12, 1991, the U.S. Bureau of the Census released the Census of Population and Housing, 1990: Public Law (P.L) 94-171 Data (Maryland) in support of congressional and state legislative redistricting. Included in this file are precinct population counts for Maryland's twenty-three counties and Baltimore City.

The Maryland Office of Planning has reviewed the Census Bureau's coding of individual census blocks (the smallest geographic areas for which population counts are available) to precincts. The corrected precinct counts are included in the body of this report.

The precinct counts are based on precinct boundaries provided by the local boards of supervisors of elections. The precinct boundaries conform to features acceptable to the U.S. Bureau of the Census. All precinct boundaries used to derive the precinct counts were reviewed and certified by the local boards of supervisors of elections. The precincts conform to boundaries as they existed in April, 1990.

The P.L. 94-171 population counts released by the U.S. Bureau of the Census for Maryland are subject to possible correction for undercount or overcount. The Secretary of the U.S. Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991. If the decision is made in favor of corrected counts, then the population counts currently available will be superseded by the corrected counts.

Congressional and legislative district plans will be developed based on the official counts as determined by the U.S. Bureau of the Census by July 15, 1991. New district lines must be drawn such that the population of all congressional districts in Maryland are as nearly equal in population as practicable. All state legislative districts must be substantially equal in population.

B. Time-Frame for Redistricting

1. Congressional Districts

Maryland's eight (8) congressional districts must be determined sufficiently in advance to enable state and local election officials to administer the March, 1992 congressional primary using the new district lines. This will require a special legislative session to adopt the congressional district plan in the Fall of 1991. The congressional district plan will be adopted like any other legislation enacted by the Maryland General Assembly.

2. State Legislative Districts

The first election to be administered under the new boundaries for the state's forty-seven (47) legislative districts is the September, 1994 primary election.

The Governor has specific state constitutional authority with respect to legislative redistricting. The Governor, under Article III, Section 5, prepares a plan outlining the boundaries of the legislative districts for electing members of the State Senate and House of Delegates. The Governor presents the plan to the President of the Senate and the Speaker of the House of Delegates so that it can be introduced as a joint resolution to the General Assembly on the first day of the regular 1992 session.

If the General Assembly adopts, by joint resolution, a plan by the 45th day after the opening of the regular session, the Plan adopted by the General Assembly becomes law. If the General Assembly fails to adopt a plan by the 45th day, the Governor's plan becomes law. The Court of Appeals has original jurisdiction to review the legislative districting of the state upon petition by any registered voter.

C. Redistricting Contacts

1. Governor's Office

The Governor is appointing an advisory committee to assist in the preparation of congressional and

legislative district plans. This committee will work with elected officials and provide an opportunity for public input in the plan preparation process. Citizens wishing to comment on redistricting may write directly to the Governor or contact his staff liaison for redistricting, Pamela J. Kelly, State House, Annapolis, Maryland 21401, (301) 974-3570.

2. General Assembly

Thomas V. Mike Miller, Jr., President of the Senate and R. Clayton Mitchell, Jr., Speaker of the House of Delegates, have requested that members of the Maryland General Assembly and other related parties contact the State Department of Legislative Reference to obtain information regarding redistricting. The staff persons to contact are F. Carvel Payne, Director, or Karl Aro, Deputy Division Director, State Department of Legislative Reference, 90 State Circle, Annapolis, Maryland 21401, (301) 841-3865 or 841-3875, respectively.

3. Maryland Office of Planning

In addition to this report, the Maryland Office of Planning has prepared a number of publicly accessible data and map products related to redistricting. This includes precinct level population counts by race and Hispanic origin for the total and voting age population in electronic format. Paper maps outlining voting districts (precincts) can also be ordered. For more information on available products and how they can be purchased, contact the Maryland Office of Planning, State Data Center, Room 1101, 301 West Preston Street, Baltimore, Maryland 21201, (301) 225-4450.

1990 CENSUS PRECINCT COUNTS

The following pages contain precinct population counts for Maryland's twenty-three counties and Baltimore City. The counts shown are derived from the 1990 Census of Population and Housing, 1990: Public Law (P.L) 94-171 Data (Maryland) machine readable data file prepared by the Bureau of the Census.

The Maryland Office of Planning has completed its review of the Census Bureau's coding of individual census blocks (the smallest geographic areas for which population counts are available) to precincts (census voting districts). Based on errors identified through this review, corrections have been made to some of the precinct counts. The population counts for the remaining precincts are unchanged as are the counts for the state, counties and Baltimore City.

The precinct population counts are subject to possible correction for undercount or overcount. The United States Department of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.

The precinct (census voting district) counts provided in this report are based on precinct boundaries provided by the local boards of supervisors of elections. The precinct boundaries conform to features acceptable to the U.S. Bureau of the Census. All precinct boundaries used to derive the precinct counts were reviewed and certified by the local boards of supervisors of elections. The precincts contained in this listing conform to boundaries as they existed in April, 1990.

1990 Census Counts by County and Election Precinct (Census Voting District) - Total Population by Race and Hispanic Origin
 Note: These precinct totals are final and reflect changes made to correct for errors made by the Census Bureau in coding census tabulation blocks to election precincts.

APPENDIX A. 1990 CENSUS COUNTS BY EXISTING CONGRESSIONAL DISTRICT

The 1990 population counts by existing congressional district are prepared by aggregating the individual precinct counts based on a "membership list" which assigns each precinct to its respective congressional district. This membership information was provided by the local boards of supervisors of elections and is shown in column 2 of the detailed precinct listing found in the body of this report. It is important to note that the precincts may not conform exactly to congressional district boundaries as adopted in 1982.

APPENDIX B. 1990 CENSUS COUNTS BY EXISTING LEGISLATIVE DISTRICT

The 1990 population counts by existing state legislative district and subdistrict are prepared by aggregating the individual precinct counts based on a "membership list" which assigns each precinct to its respective state legislative district (or subdistrict). This membership information was provided by the local boards of supervisors of elections and is shown in column 1 of the detailed precinct listing found in the main body of this report. It is important to note that the precincts may not conform exactly to legislative districts and subdistrict boundaries as adopted in 1982.

NOTE: These district totals are corrected for errors made by the Census Bureau in coding tabulation blocks to election precincts.

IMPORTANT: The 1990 population for legislative districts are derived based on the assignment of voting districts (precincts) to legislative districts as provided by local election boards. In some instances voting districts may not conform exactly to legislative district boundaries as adopted in 1982.

Source: Census of Population and Housing, 1990: Public Law 94-171 Data (Maryland)/prepared by the Bureau of the Census. The population counts set forth herein are subject to possible correction for undercount or overcount. The U.S. Dept. of Commerce is considering whether to correct these counts and will publish corrected counts, if any, not later than July 15, 1991.
