Proposed Towson Point Zoning, Design and Development Concept

Zoning
CEF-R (Community Enhancement Floating – Residential) District

Design Elements
- Towson House as focal point
- Streets provide framework
- Building orientations reinforce public spaces
- Compactness and low-impact development
- Pedestrian-oriented community
- Environmental preservation

Development Concept
- 6 Single Family Detached
- 22 Apartments (Studio Flats)
- 62 Townhomes
- Towson House as community center
Total: 90 units

Proposed Enhancements
- Improve public roads with curb and gutter and sidewalk beyond the site to signaled intersection
- Extend pathway to connect with surrounding community paths
- Restoration of historic Towson House and future use as a community center
- Passive recreation space for public use with sidewalk connections to surrounding neighborhoods
- Install community designed playground in off-site park
Table Facilitator Guide – Draft 9/25
PlanHoward Academy: Session #1

LOGISTICS

Wednesday, September 27, 2017  
7 pm- 9 pm  
Doors open to participants at 6:30 pm  
Sessions will be held in Room 107 of the Science Engineering Technology Building at Howard Community College.

- Arrive on Time: Facilitator Check-in begins at 6:00pm.  
- Parking: Click here to view the campus map. Parking is available in Lots B and C. Please park in the rear of the campus (the westernmost entrance, then straight back, behind historic church)
- If you will be late: Please contact us as soon as possible by calling Randy Clay at (410)491-0022  
- Dress: Business casual

PEOPLE THAT SUPPORT YOU DIRECTLY

- Lead Facilitator: Steve Brigham will guide the program. Be prepared for changes in the program and always follow his guidance.  
- Floor Manager: Randy Clay will be managing logistics throughout the room, supports area facilitators, and interacts with the participants.  
- Area Facilitators: If you have questions about tasks, directions, group process, problems with participants, questions/challenges with the keypad polling, etc., please raise your hand.

TABLE FACILITATOR ROLE

- Being an Ambassador: For a good part of the program, you will be the face of the workshop for the participants at your table. Be a good host – smile, be friendly, and help them with any needs.
- Supporting Participants: Your primary role is to help participants have a good and productive discussion. Make sure they understand the task and the information presented, and that everybody is participating.
- Staying Neutral: Your role does NOT include sharing your own opinion. Even though many of you probably have good ideas to share on today’s discussions, today is your day to help others share their ideas.

OTHER STUFF

- Polling Keypads: Facilitators should not use a polling keypad at any time. Only participants use polling keypads.  
- Technology: At the end of the meeting, count and collect the keypads from your table.  
- Scheduled Breaks: There are no scheduled breaks. Participants can take a break as needed, but encourage them to come right back to the table.  
  o If you need to take a break, please notify your Area Facilitator. He will sit in at your table if needed.  
  o Please avoid taking any breaks during table discussions if you can.
- Evaluations: Make sure everyone at your table completes their evaluation sheets. Get them to Randy.  
- Departure: Once you have cleared your table and dropped off your table’s material to Randy, you are free to go.
Pike Place (Exercise)

Four Possible Alternative Compliance Requests:

1. Access from Kennett Pike encroaching on the Coffee Run buffer.
2. Coffee Run stream crossing to reach 1/3 of parcel.

1. Following pre-submission community meeting input, the applicant requested the only point of ingress/egress to be off Kennett Pike.
2. Six (6) specimen trees requested for removal due to grading requirements. The entry road from Kennett Pike was set back to avoid stream buffer and forested steep slopes.
Opportunities for Public Input

Accessing Project Information:

1. Come to the DPZ Customer Service Counter Monday through Thursday between 8:00 am – 5:00 pm and Friday 8:00 am – 3:00 pm.

2. Ask the Planner of the Day by calling 410-313-2350. The project manager will be located and they will likely be able to send you a PDF of plan sheets that you are most interested in by email.

3. Contact our Research Division and ask to be given a user name and access to the project in ProjectDox. Please note you will only be able to access the plans, exhibits and reports, and NOT agency comments.
