Prepared by Maryland Department of Planning, Planning Data Services, October 2010

[NOTE. Includes firms with paid employees and firms with no paid employees. The U.S. totals are based on the 2007 Economic Census, whereas the gender, race, and origin, and race estimates are based on the 2007 Survey of Business Owners. Detail may not add to total because a Hispanic or Latino firm may be of any race and therefore is included in each race selected. Firms with more than one domestic establishment are counted by geographic area in which they operate, but only once in the state totals.
