

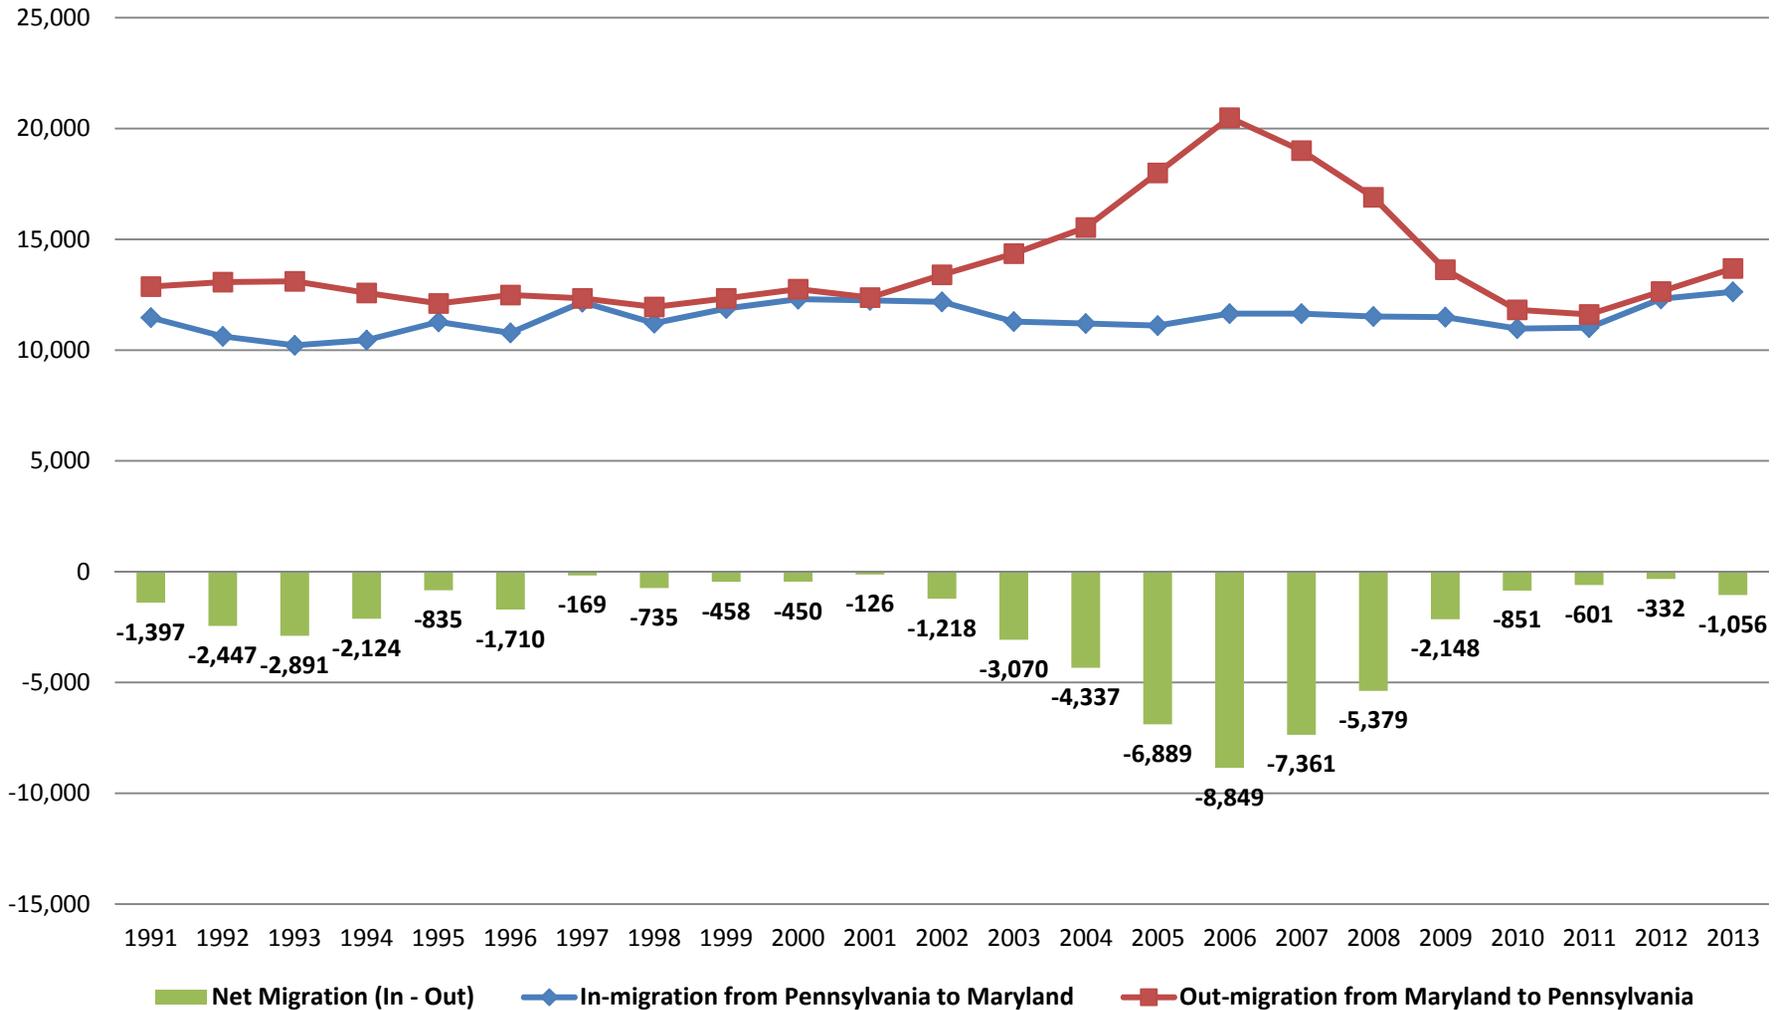

### Chart 1. Annual In, Out and Net Migration Between Maryland and Pennsylvania, 1991 - 2013 \*

\* In and out migration flows for 2012 and 2013 are not directly comparable to prior years since the data for these two years were based on the analysis of 12-months of tax returns as opposed to approximately 9-months worth of tax returns used for prior years

Prepared by the Maryland Department of Planning, from IRS State-to-State migration data, September 2014
