Source: U.S. Census Bureau, Census 2020.

Prepared by the Maryland Department of Planning, Projections and Data

Analysis / State Data Center.

Table T01001 provides population counts for racial and ethnic groups at the nation and state levels. For county, tract, and place levels and American Indian/Alaska Native/Native Hawaiian (AIANNH) areas, Table T01001 provides population counts for racial and ethnic groups that met minimum population counts. For more information on the minimum population counts and accuracy, access the <a href="https://www2.census.gov/programs-surveys/decennial/2020/technical-documentation/complete-tech-docs/detailed-demographic-and-housing-characteristics-file-a/2020census-detailed-dhc-a-techdoc.pdf">2020 Census Detailed Demographic and Housing Characteristics File A (Detailed DHC-A) Technical Documentation</a>

Aggregating data, such as geographies and sex by age data, diminishes accuracy and increases the likelihood of inconsistent and improbable results. For guidance on creating custom aggregations from Detailed DHC-A data, access the <a href="https://www2.census.gov/programs-surveys/decennial/2020/technical-documentation/complete-tech-docs/detailed-demographic-and-housing-characteristics-file-a/2020census-detailed-dhc-a-techdoc.pdf">2020 Census Detailed Demographic and Housing Characteristics File A (Detailed DHC-A) Technical Documentation</a>.<br/>br/><br/>

Counts showing an "X" are suppressed for one of two reasons: (1) the count was negative or (2) it is an alone count larger than its equivalent alone or in any combination count. If the suppressed count is an alone count, data users should use the equivalent alone in any combination count, if it is available.<br/>
The Hispanic origin and race codes were updated in 2020. For more information on the Hispanic origin and race code changes, access <a href="https://www.census.gov/newsroom/blogs/random-samplings/2021/08/improvements-to-2020-census-race-hispanic-origin-question-designs.html#:~:text=Based%20on%20further%20research%2C%20testing,recognize%20longer%20write%2Din%20responses.">Improvements to the 2020 Census Race and Hispanic Origin Question Designs, Data Processing, and Coding Procedures</a>.<br/>

Data users may observe implausible and improbable data within this product and compared with other 2020 Census data products. For example, it is possible for a detailed group to have a larger count in a tract than in its corresponding county.
