

## Appendix 1: Existing Reports

At the onset of the project, recognizing that the state and many other entities had previously addressed infill, redevelopment and revitalization, the Commission asked staff to review existing reports from state agencies, stakeholder groups, task forces and other sources to capture relevant recommendations. Staff reviewed and identified salient recommendations from a number of existing reports and distributed a summary of these recommendations to the Growth Commission. The Commission discussed these recommendations at its May 12, 2014, meeting, and this conversation helped to inform the incorporation of prior recommendations into the final report.
