Prepared by Maryland Department of Planning, Planning Services, September 14, 2020.
 SOURCE: Maryland Department of Labor, Division of Unemployment Insurance, Weekly Reports.

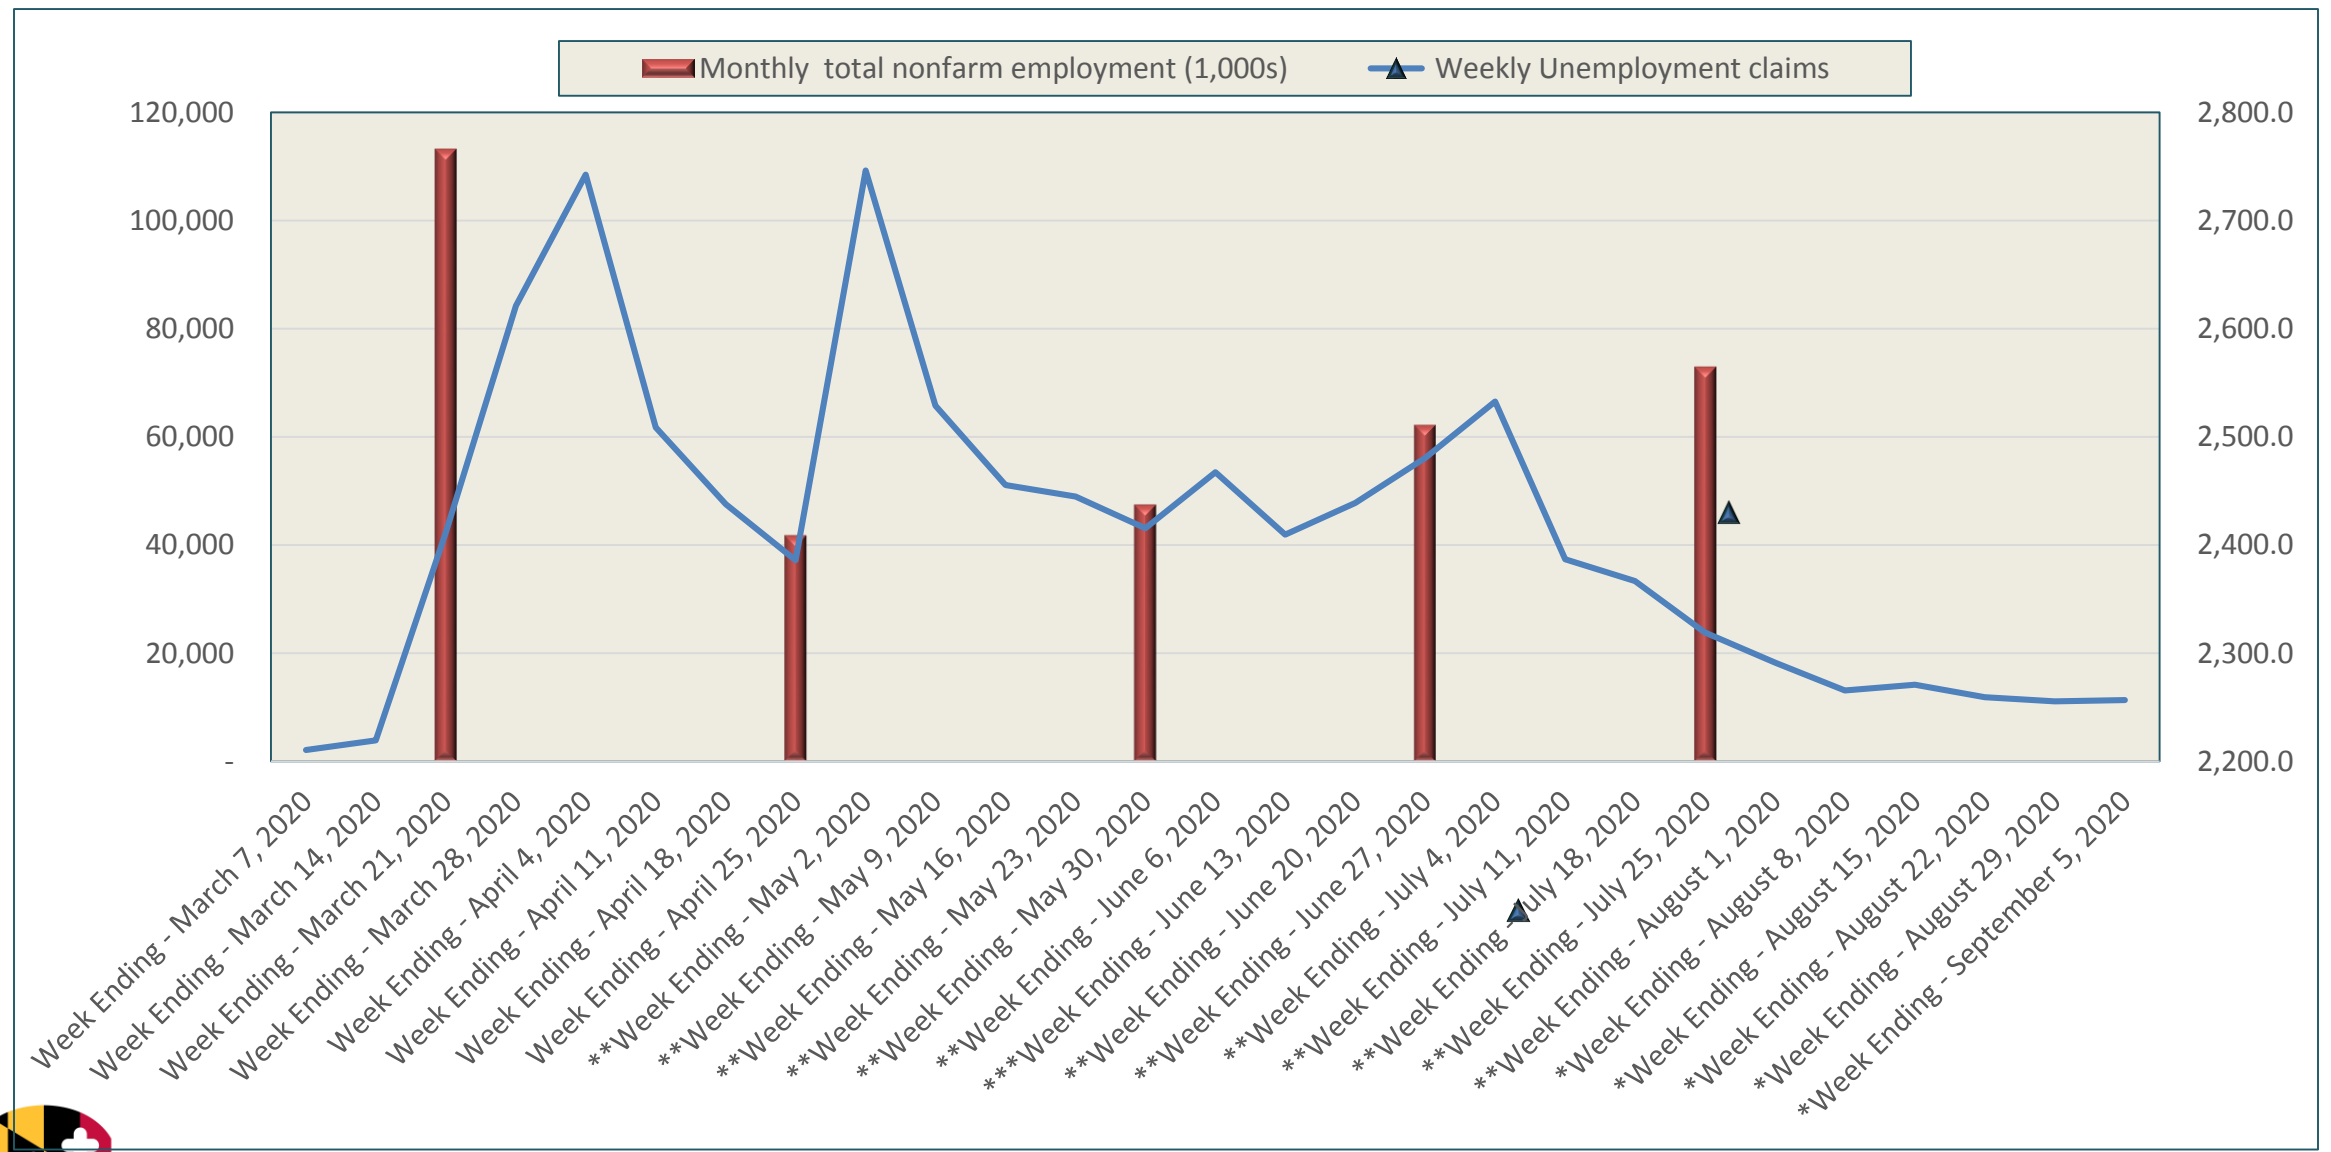

*The total does not include Unknown or Non-Maryland
 **DLER includes PUA (Pandemic Unemployment Assistance) program claims and PEUC (Pandemic Emergency Unemployment Compensation) program claims starting the week ending of May 2, 2020.

***The Maryland Department of Labor implemented a change on June 11 to expedite the processing of claims. This resulted in some previously existing, regular UI claims being reclassified as PUA claims. The county breakdown of these reclassified claims has been estimated based on statewide totals. These reclassified claims should not be considered new claims and are excluded from the weekly totals in the chart above. However, per the U.S. Department of Labor's reporting guidelines, the total number of claims reported for the week ending June 15 was 86,286, which includes the 43,797 reclassified claims. The total number of new claims filed during the week ending June 15 was 41,941.
